

## Final Thoughts—Solar & Lunar Eclipses

To conclude this exploration, you will revisit your claims about solar and lunar eclipses.

### What causes solar and lunar eclipses?

#### *Final Thoughts-Revisiting Claims*

1. Describe or draw your current ideas about how the black spot in the photo appeared on Earth's surface during a solar eclipse.

2. Describe or draw what we see from Earth during a solar eclipse.
3. Describe or draw your current ideas about what we see from Earth during a lunar eclipse.
4. Explain why we don't see a solar or lunar eclipse every month.
5. How have your claims changed since First Thoughts?
6. What evidence did you gather that made you revise your claims?
