

The Deaths of Stars—Final Thoughts**E4:A5****What happens when different types of stars die?***Revisiting Your Claims*

To conclude this Exploration, you will revisit claims about the deaths of stars.

1. What do you think happens when a star dies?
2. Is there anything left over after the death of a star?
3. How do you think the process of star death differs for different types of stars?
4. How have your claims changed since the First Thoughts?
5. What evidence did you gather that made you revise your claims?

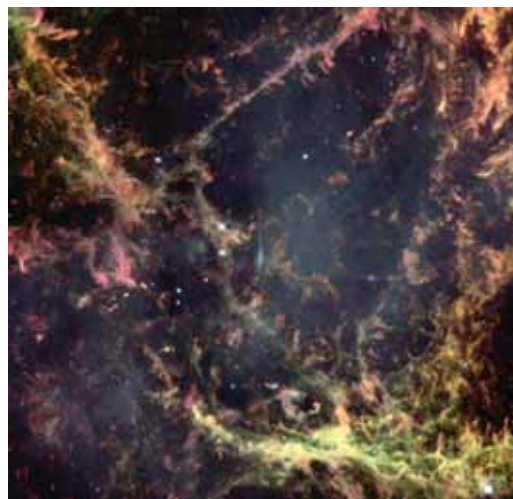

Figure 3-1: Image of wisps of gas, which are all that remain of a once mighty 15-solar-mass supergiant star that exploded thousands of years ago
